

PATENTED DESIGN

Patented Technology locks down the NEW
MacBook Air & MacBook Pro with Retina display

ThinkSafe[™] Portable Laptop Locking Systems by PNY safely secure your Laptop, Ultrabook, or MacBook via the hinge or built-in slot.

The patented hinge-locking and patent-pending slot-locking designs utilize Hinge-Link[™] and Slot-Link[™] technology, providing a secure and universal fit. Plus, both the keyed lock and combination lock grant the ultimate in security. Protect Your World.

Benefits

- Portable Locking System engineered to work with Laptops, Ultrabooks,[™] and MacBooks
- Clean and convenient out-of-the-way locking solution; does not obstruct ports on the side of your device.
- Patented hinge-locking design provides the only solution available to lock the MacBook Air, MacBook Pro with Retina display, and Ultrabooks that have no security slot.
- Compact size; easy to transport with included travel pouch
- Easy to Use: Hinge-Link[™] inserts through the hinge in seconds

- Easily connects in seconds
- Compact size; easy to transport with included travel pouch
- Unique patented design
