

# CL4111 Client SSD Upgrade Today

PNY SSDs deliver the highest quality with guaranteed endurance and reliability.

## Designed for Corporate IT Environments

Ideal for fast application  
launch, high reliability  
and security

Easy deployment and  
secure manageability in  
client IT environments

Optimized for reliability, power-  
efficiency, and durability

OEM Grade Reliability  
JEDEC Client testing –  
8 hrs/day operation

**555/530 MB/s**

Max Read/Write

**Ultra-Slim**

2.5 inch 7mm form factor

**Next Generation**

MLC NAND Technology

**5-Year Limited  
Warranty**

## State of the Art Security

Features hardware based AES 256-bit  
encryption, Secure Erase support

End-to-end data path protection  
with enhanced ECC

RAISE® helps keep data safe by adding  
internal redundancy

## Reasons Why You Should Upgrade to a PNY Client SSD

### Better System Performance

Blazing fast performance to make  
your PC or laptop up to 24x faster  
than a traditional HDD. Whether it's  
loading applications, transferring files  
or data PNY SSDs are significantly  
faster than HDDs.

### Longer Battery Life

Built with flash memory from industry  
leading suppliers, PNY SSDs consume  
significantly less power than an HDD.

### Guaranteed Endurance

With no moving parts, your computer  
is more reliable and resilient with a  
PNY SSD and it can withstand drops  
and bumps, without losing data.

### Cooler, Quieter Operation

Keep your Laptop cooler and quieter  
with an energy-efficient SSD that  
won't overheat.

\* Specifications applies to CL4111 120GB, 240GB, 480GB only. For CL4111 960GB refer to Product Brief.
