

<b>Model Number</b>	<b>CS21111</b>
<b>Description</b>	PNY XLR8 240GB CS2111 Internal 2.5 inch SATA III SSD with blazing fast 555 MB/s read speed
<b>PNY Part Number</b>	240 GB SSD7CS2111-240-RB

## Overview

The PNY CS2111 2.5-inch SATA (6 Gb/s) solid state drive (SSD) is the next generation of XLR8™ SSD targeted for enthusiasts and gamers who seek out an edge over their competition in the high performance gaming segment.

Coupled with PNY XLR8 graphics cards, these SSDs can give tremendous out of the box experience for graphics intensive gaming at blazing fast speeds without compromising storage reliability.

Designed and manufactured in the U.S.A.

## Elevate & XLR8 Your Gaming Experience with PNY CS2111 Series SSD Drives

- Blazing-fast Read speeds of 555 MB/s Sequential Read and Sequential write of 320 MB/s with read IOPS of 71,000 and write of 72,000
- Ideal option for PC Enthusiasts and Gamers looking for an extra edge over the competition
- Exceptional performance without compromising reliability
- Ultra-responsive gaming, multitasking, and multimedia storage
- Ultra low power consumption: Active: 2.5 W and Idle 0.5 W
- Height: 7mm (9.5mm with provided spacer), weight 80 gms
- SATA III 6Gb/s (backward compatible with SATA II and SATA I)
- 3 year limited warranty

## Specifications

<b>Capacity</b>	<b>240 GB</b>
<b>Model number</b>	SSD7CS2111-240-RB
<b>Type of drive</b>	Solid State Drive
<b>Form Factor</b>	2.5 inch
<b>Height</b>	7mm (9.5 mm with supplied 2.5mm spacer)
<b>For use with</b>	
<b>Interface</b>	SATA III 6Gbits/sec (backward compatible with SATA II)
<b>Random read speed</b>	555 MB/s
<b>Random write speed</b>	320 MB/s
<b>Sequential read speed</b>	71,000
<b>Sequential write speed</b>	72,000
<b>Controller</b>	SMI 2246 EN
<b>NAND type</b>	MLC
<b>Cache</b>	256 MB
