

PNY DUO-LINK OTG USB 3.0 Android User Manual

1. PRODUCT DESCRIPTION

PNY DUO-LINK is an on-the-go USB flash drive with a micro USB connector that works with Android devices and a standard USB connector that works with both PC and Mac computers.

DUO-LINK allows users to:

- Easily transfer files between PC/MAC computers and Android devices.
- Browse and view documents, photos and video files and listen to music files stored on the DUO-LINK OTG flash drive and Android device.
- Use DUO-LINK as an traditional USB flash drive on Mac and PC

Physical Description

No.	Name	Description
1	MicroUSB Connector	Connector to Android devices (e.g., smartphone or tablet)
2	Standard USB Type A Connector	Connector to Mac or PC

2. SYSTEM REQUIREMENTS

DUO-LINK is compatible with:

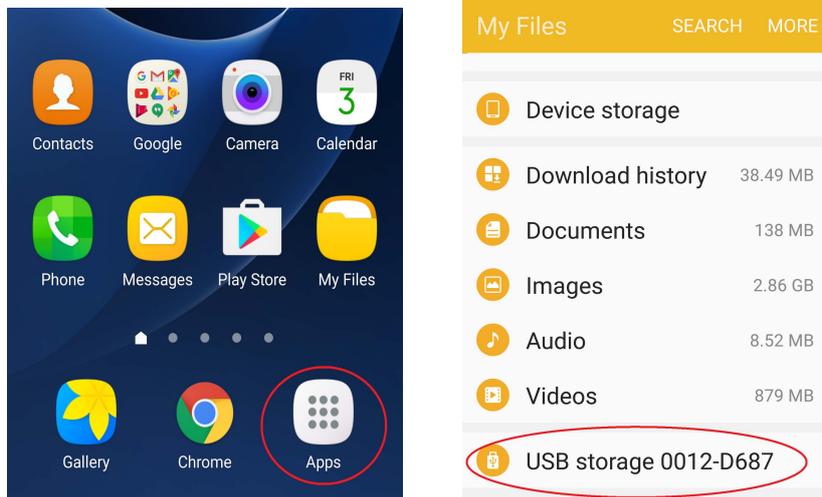

- On-The-Go (OTG)-enabled Android devices
- Android version 6.0 M
- PC: Windows Vista, Windows 7, Windows 8, Windows 10, Mac OS X

3. DEVICE COMPATIBILITY WITH OTG PRODUCTS

- A device's OTG-enabled capabilities varies based on the manufacturer and model.
- Determine if your Android device is OTG-enabled by downloading an OTG Checker app from the Google Play store ().
- Also, you can check with your device manufacturer for OTG compatibility.

4. FILE MANAGER ACCESS

- The DUO-LINK OTG USB 3.0 Flash Drive for Android devices can be accessed on your mobile device using a file manager. The file explorer is located in the apps folder of your Android device.

- The name of the file manager varies depending on the device (e.g., My files, File manager).
- For some Android devices, a file manager app will need to be downloaded onto the device. If your device is OTG-enabled and does not have a file explorer, you can download the Astro file manager app * () or a similar file manager in the Google Play store ().
- The usage instructions for the Astro file Manager are located at:
<http://www.metago.net/support>

* PNY is not associated with Astro file manager; it is used for illustrative purposes only. Each user must determine the specific file manager that is right for their use.
