

# Long-Life Product Program

## NEW PROGRAM, NEW LEVEL.

NVIDIA RTX™ products have always benefited from NVIDIA's carefully controlled and implemented design, build and test criteria, extended product availability, and fully documented lifecycle notifications. The new Long-Life Program (LLP) takes NVIDIA and PNY's joint professional graphics customer commitment to the next level by offering product availability through December 2029, starting from product launch, for select mission-critical NVIDIA RTX products deployed across enterprises or embedded in customer solutions. For customers ranging from end-users to IT professionals and systems integrators or OEMs, gain access to critical security updates and bug fixes, plus extended hardware availability for provide peace of mind.

### CURRENT NVIDIA LONG-LIFE ROADMAP

	PRODUCT LINE UP	STANDARD SKU PRODUCT LIFE CYCLE	LONG-LIFE SKU PRODUCT LIFE CYCLE
ULTRA	RTX A6000 48GB	STANDARD SKU	LONG-LIFE SKU EST. 2029

	RTX A4000 16GB	STANDARD SKU	LONG-LIFE SKU EST. 2029
ENTRY AND MIDRANGE	RTX A2000 12GB	STANDARD SKU	LONG-LIFE SKU EST. 2029
	T1000 8GB	STANDARD SKU	LONG-LIFE SKU EST. 2029
	T400 4GB	STANDARD SKU	LONG-LIFE SKU EST. 2029

## LONG-LIFE PRODUCT BENEFITS

### HARDWARE AVAILABILITY

Currently, Long-Life products (LLP) will be available through December 2029. For long-term deployments and design commitments this can be a decisive advantage.

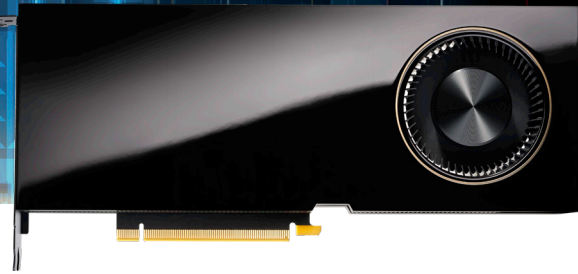

### SOFTWARE SUPPORT

LLP customers will receive critical driver security updates, and urgent bug fixes, for the life of the product.

### WARRANTY COVERAGE

LLP customers will receive hardware warranty support for 3 years after the last shipment of the product.

## NVIDIA'S COMMITMENT FOR LONG-LIFE PRODUCTS

- NVIDIA ensures availability of product for agreed lifetime forecast
- Secure GPU availability for lifetime quantity
- Purchase memory for lifetime of product
- Purchase any other key components to ensure availability
- No significant hardware change which requires a PCN
- Keeping the manufacturing lines and test equipment available
- Component yield loss
- Component storage fees
- Component management and overhead
- Memory re-bake when required
- Perform tests required prior to board builds to ensure components meet required quality
- Continued 3-year warranty starting from date of shipment
- Software driver maintenance
- Any other necessary items required to ensure availability

CONTACT YOUR **PNY ACCOUNT MANAGER** TO DETERMINE IF YOUR PRODUCT REQUIREMENTS QUALIFY FOR THE LLP.
