

Press Release

PNY GeForce RTX 3060 Ti Ultimate Performance Delivered Powered by NVIDIA Ampere Architecture

Image: PNY GeForce RTX™ 3060 Ti

Parsippany, New Jersey, December 1st, 2020 - PNY today announced the expansion of its NVIDIA® GeForce RTX™ GPU product portfolio by adding the new RTX 3060 Ti.

PNY is launching two RTX 3060 Ti models: the GeForce RTX 3060 Ti XLR8 Gaming REVEL EPIC-X RGB™ under the XLR8 Gaming brand and the GeForce RTX 3060 Ti UPRISING under the PNY brand, both featuring a two fan design, 8GB GDDR6 of on-board memory and powered by the NVIDIA Ampere architecture and the 2nd generation of NVIDIA RTX, the world's most powerful PC gaming platform for real-time ray tracing and AI, the GeForce RTX 3060 Ti delivers blistering 1080p and 1440p gameplay.

PNY GeForce RTX 3060 Ti

Displaying a smaller footprint with two fans and using only 2 slots, the GeForce RTX 3060 Ti works on builds of all sizes, while still providing all the sought-after power of the NVIDIA Ampere architecture and features 8GB GDDR6 on-board memory, PCIe 4.0 platform, three DisplayPort 1.4a outputs and one HDMI 2.1 output.

The RTX 3060 Ti also supports the trifecta of GeForce gaming innovations too, including performance-accelerating and IQ-enhancing [NVIDIA DLSS](#) technology which is now available in over 25 games; [NVIDIA Reflex](#) which reduces system latency ('input lag'), making games more responsive, and giving players in competitive multiplayer titles an

extra edge over the opposition; and [NVIDIA Broadcast](#), a suite of audio and video AI enhancements including virtual backgrounds and noise removal that users can apply to chats, Skype calls and video meetings. So whether they're playing traditional PC titles, powering through [creator and productivity workflows](#), or marveling at the latest [cutting-edge ray-traced titles](#) like [Cyberpunk 2077](#), [Call of Duty: Black Ops Cold War](#), [Watch Dogs: Legion](#), and more, the GeForce RTX 3060 Ti delivers the best possible experience in its class for everyone everywhere.

VelocityX Software

Bring the performance of the GeForce RTX 3060 Ti to a whole new level by customizing and monitoring critical stats, like core clock, memory clock, core temperature, fan speed, and more. VelocityX also controls the 256-bit EPIC-X RGB on the REVEL edition, delivering brilliant lighting and an awesome gaming experience.

Gaming beyond imagination

A whole new dimension in PC gaming has arrived. Gamers, streamers, modders, and everyone in between can now count on PNY's expanded GeForce RTX 30 Series portfolio of graphics cards that deliver the ultimate performance and gaming experience, raising the bar of visual graphics with mind-blowing ray tracing, maximizing FPS, and setting the tone for the next victory.

Meet the PNY GeForce RTX 3060 Ti

REVEL with EPIC-X RGB

UPRISING

PNY GeForce RTX 3060 Ti

- 8GB GDDR6 (256-bit)
- 2 Fan
- PCI Express 4.0
- DisplayPort 1.4a and HDMI 2.1
- Overclocking: via VelocityX Software
