#### **The Need for Speed and Performance**

Life today demands speed and performance in everything that we do. Whether for work, content creation, learning, or gaming - and we do game – the demand for speed and performance has never been greater and as such, to count on components that deliver this speed and performance is not a luxury but a must. Consider it delivered.

#### **Overclocked Performance**

Winning in extreme game titles demands higher framerates allowing for faster on-screen loading letting gamers perform at their best. Faster memory means less bottlenecking for modern CPUs and GPUs that thrive off high speed RAM. The PNY XLR8 Gaming EPIC-X RGB DDR4 3600MHz Desktop Memory delivers the required Overclocked Performance and supports XMP 2.0 technology to provide a superior gaming experience.

#### **Unmatched Style**

Keep the heat on the game and the modules cool under pressure. The PNY XLR8 Gaming EPIC-X RGB DDR4 3600MHz Desktop Memory is designed with our most advanced heat spreader yet which offers improved cooling and an aggressive faceted 3D geometric design. To keep any mod or system looking its best, the dual-sided 5x2 LED configuration housed inside a frosted light guide lens provides brilliant RGB lighting that eliminates shadows and dark spots. The RGB is compatible with major motherboards and is ready-to-sync with Asus AURA SYNC™, Gigabyte RGB FUSION 2.0, MSI Mystic Light Sync, and ASRock Polychrome SYNC<sup>1</sup> for the ultimate RGB experience.

### **Product Specification**

- DDR4 RGB enabled Desktop Memory
- Built-in heat spreader
- Frequency: 3600MHz (PC4-28800)
- Timing: 18-20-20, CAS 18, tRas42
- Voltage: 1.35V

### **Availability**

PNY XLR8 Gaming EPIC-X RGB DDR4 3600MHz Desktop 16GB Kit (2 x 8GB) is available starting today via our partners Amazon.com and Best Buy.com as well as at [www.pny.com/shop](http://www.pny.com/shop).
