

**PNY® Announces upcoming availability of
NVIDIA GeForce RTX™ 2060 Graphics Cards at CES 2019**

CES, Las Vegas, January 6th, 2019— PNY® Technologies today announces the upcoming availability of the latest GeForce RTX™ 2060 graphics cards under both its XLR8® Gaming and PNY® brands.

Powered by the all-new NVIDIA Turing™ architecture, the GeForce RTX™ 2060 GPU brings gaming realism to a whole new level with Real-Time Ray Tracing, delivering lifelike lighting shadows, and reflection technology to offer the best gaming experience yet. With up to 6x the performance of previous generations, this new addition to the XLR8® and PNY® GeForce RTX™ lineups is designed to provide gamers with crucial features such as VR support, 4K display and Nvidia Ansel for an in-game experience going far beyond gamers expectations.

PNY® GeForce RTX™ 2060 6GB XLR8 Gaming Overclocked Edition

The PNY® GeForce RTX™ 2060 6GB XLR8 Gaming Overclocked Edition has been carefully crafted with a dual fan design to allow maximum airflow, ensuring superior cooling and unwavering performance. Equipped with the latest technologies such as high-speed GDDR6 memory, Real-Time Ray Tracing, Nvidia Ansel, etc. the PNY® GeForce RTX™ 2060 6GB XLR8 Gaming Overclocked Edition is ready for all gaming needs.

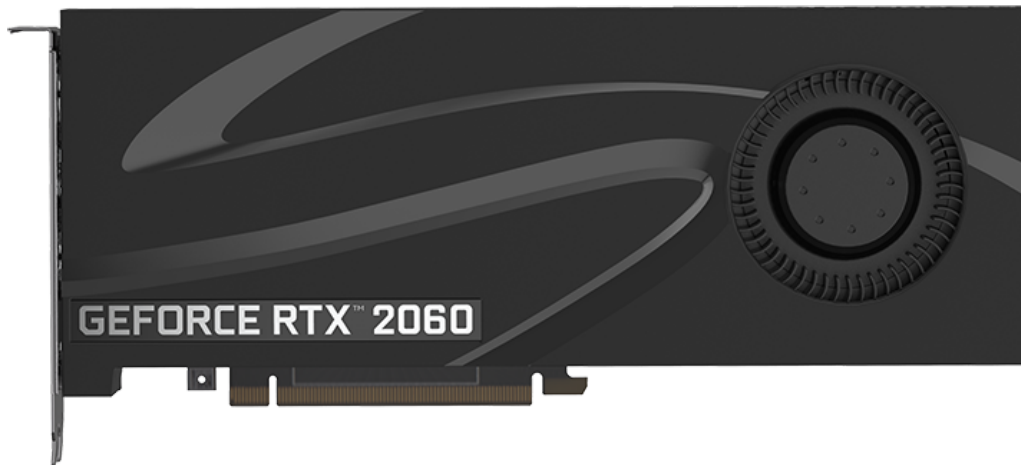

Supporting PNY's Velocity X Overclocking Software, the PNY® GeForce RTX™ 2060 6GB XLR8 Gaming Overclocked Edition allows for full monitoring of its clocks, temperatures, and speed, as well as select

customization to ensure optimum use of the GPU and deliver the best experience to PC enthusiasts and gamers.

PNY® GeForce RTX™ 2060 6GB Single Fan

The PNY GeForce® RTX 2060 6GB Single Fan takes advantage of the cutting-edge NVIDIA Turing™ architecture to immerse enthusiasts in the latest game titles with incredible realism and performance. Relying on a compact design, the PNY GeForce RTX™ 2060 6GB Single Fan is a great solution for anyone looking for a balance of incredible gaming performance and small form factor.

PNY® GeForce RTX™ 2060 6GB Blower

Engineered with reliability and stability in mind the PNY® GeForce RTX™ 2060 6GB Blower thermal design is built around a radial fan that allows for optimized airflow, pushing all the hot air from the PC via a rear exhaust while keeping the computer temperatures in check. Equipped with the latest technologies such as high-speed GDDR6 memory and Real-Time Ray Tracing, the PNY® GeForce RTX™ 2060 6GB Blower is ready for the most demanding tasks.

Availability

Selected PNY® GeForce RTX™ 2060 graphics cards will be available starting January 15th, at leading retail and e-tail partners.
