

XLR8 Gaming EPIC-X RGB™ DDR5 6000MHz CL30 Desktop Memory

EPIC-X RGB™

Synchronize with mainstream motherboards and control your color experience.

Extreme Performance

Pushes the limit with aggressive speed, low latency, and extreme overclocking capabilities.

Intel XMP 3.0 & AMD EXPO Support

Super easy overclocking and runs at top speed.

THE NEXT EVOLUTION IN RGB PERFORMANCE

Elevate your gaming experience with PNY XLR8 Gaming EPIC-X RGB™ DDR5 Memory. Engineered for gamers and enthusiasts, this memory module features a brilliant RGB design coupled with extreme overclocked performance, pushing your PC to its limits. Its sleek and modern profile, complemented by a matte black aluminum finish, adds a touch of sophistication to any PC build. The heat spreaders' design not only enhances the overall aesthetic appeal of your system but also ensure efficient heat dissipation, guaranteeing optimal performance even under the most demanding loads. Upgrade your system with style and substance – choose PNY XLR8 Gaming EPIC-X RGB™ DDR5 Memory.

An XLR8 logo is proudly emblazoned on the side of the module, and the heat spreader features an embossed pennant design that enhances the overall look and complements the lighting of other components, providing unmatched flair and style. With support for both Intel XMP 3.0 and AMD EXPO in each module, gamers and enthusiasts can achieve extreme overclocking right out of the box, without worrying about system compatibility. High-quality components and premium ICs combine to deliver aggressive speeds, low latency, and the legendary reliability that PNY is known for.

For more than 40 years, PNY has been rigorously sourcing, testing, and manufacturing memory upgrades for thousands of the most popular PC platforms. No matter what you do on your PC, you'll do it better and faster with a DDR5 6000MHz upgrade from PNY.

DDR5 6000MHz PERFORMANCE

PNY's premium XLR8 memory features our most aggressive speeds, highest bandwidth, lowest latency and power consumption, and most advanced thermal performance for maximum PC stability and responsiveness during memory-intensive gaming and application use. XLR8 Gaming RGB DDR5 memory modules are rigorously engineered and tested to ensure peak performance in even the most challenging gaming environments.

PRODUCT SPECIFICATIONS

| | |
|-------------------------|--|
| Memory Type | DDR5 ECC Unbuffered DIMM |
| Capacity | 32GB (2x16GB) 64GB (2x32GB) |
| Channel Type | Quad Channel Kit |
| Frequency Speed (JEDEC) | 6000MHz (PC5-48000) |
| CAS Latency | CL30 |
| Voltage | 32GB (2x16GB): 1.35V 64GB (2x32GB): 1.4V |
| XMP & EXPO Support | Yes |
| Speed Compatibility | 6000MHz, 5600MHz, 5200MHz, 4800MHz |
| Warranty | US & APAC: Limited Lifetime EMEA: 10 Year Limited |
